PORTFOLIO & POTENTIAL BENEFITS

Our Services optimize MRO & Capex Supply Chain reducing operation cost and increasing service level.

MRO & CAPEX TOTAL COST REDUCTION

MRO offers complete and innovative solutions for inventory planning, procurement and warehousing for MRO items (Maintenance, Repair and Operation). The company adds value to its clients by stock optimizations and assets availability increasing free cash flow.

BENEFITS:

- Increased spare parts availability
- Inventory optimization
- Working capital reduction
- Improved consumption forecast
- Procurement optimization: replenishment reduction, contracts and timing
- Parallel inventory reductions
- Alternative revenue increasing: scrap-yards and auctions
- Loss Prevention and compliance
- Procedures optimization and control
- Warehouse layout optimization
- Increased labor force and equipment productivity
- Reduction in inventory discrepancy
